

MAX GXL Facts “The Glutathione Accelerator”

Supplement Facts

Serving Size 3 Capsules

Amount Per Serving		% Daily Value
Vitamin C (as Calcium Ascorbate USP)	250 mg	417%
L Glutamine	750 mg	*
N-Acetyl Cysteine (NAC)	375 mg	*
Alpha Lipoic Acid	75mg	*
Proprietary GSH Absorption & Recycling Blend: Cordyceps, N-Acetyl D-Glucosamine, Quercetin, Milk Thistle Extract (Silybum Marianum) 80% Silimarin.	488 mg	*
Other Ingredients: Gelatin Capsules		

*Daily value not established.

100% natural. No sugar, starch, yeast, soy or preservatives.

Vitamin C: (as Calcium Ascorbate) Is an antioxidant that is required for tissue growth and repair, adrenal gland function and healthy gums. Aids in the production of anti-stress hormones. It protects against harmful effects of pollution, helps prevent cancer, protects against infection, and enhances immunity. May reduce cholesterol levels and high blood pressure and prevent atherosclerosis.

N Acetyl Cysteine: Is an immune enhancer; prevents and treats cancer; detoxifies heavy metals; treats smoker cough and bronchitis; prevents heart disease; slows progress of HIV infection; reduces exercise fatigue; increases levels of glutathione in the liver. Cysteine is present in alpha-keratin, the chief protein constituent of the fingernails, toenails, skin, and hair. Because it increases glutathione levels in the lungs, kidneys, liver and bone marrow, it has an anti-aging effect on the body.

L-glutamine: Can be helpful in treatment of arthritis, fibrosis, and intestinal disorders. Used to treat problems of epilepsy, fatigue, impotence, senility, and decreases sugar cravings and the desire for alcohol.

N Acetyl D-Glucosamine: Is used to strengthen immune functions, can restrain and treat all kinds of cancer, and used to treat bone arthritis and joint pain.

Quercetin: Is known as a potent antioxidant that helps fight free radicals that can cause cellular damage. It is a natural anti-histamine and anti-inflammatory. May help prevent cancer, especially prostate cancer. May also help to reduce symptoms like fatigue, depression, and anxiety.

Milk Thistle Extract: May be used to relieve congestion of the liver, spleen, and kidney. Used for prevention of liver disorders.

Alpha Lipoic Acid: It directly recycles and extends the metabolic life span of Vitamin C, glutathione, and Coenzyme Q-10, and renews Vitamin E.

Cordyceps: Boosts energy and endurance. It is believed it may help your body use energy more efficiently by increasing blood flow to your liver and other organs and by improving your oxygen use. May alleviate fatigue.

Conjugated Linoleic Acid: Increases metabolic rate, decreases abdominal fat, enhances muscle growth, lowers cholesterol and triglycerides, lowers insulin resistance and enhances immune system.

The key to this product is the Composition Patent. It's the science behind the formulation that makes this product work so effectively, more than by using the ingredients individually. Plus, it is much less expensive than buying the separately.
