

# MAXGXL™

**Say NO to Accelerated Aging  
Say YES to More Energy and Better Health**

**The PATENTED High Performance Fuel  
for Cellular Energy & Protection**

## **Glutathione**

### **Your Body's Miracle-Working Super-Protein**

Glutathione is a tri-peptide (three proteins in one molecule) produced by every cell in the body. It is so critical to cellular function that over 79,000 medical articles have been published about it. It is the body's most powerful antioxidant, millions of times more effective than ingested vitamin C and E. Intracellular glutathione fights inflammation, preserving cellular health. Glutathione also works to help improve mental functions, increase energy, improve concentration, support increased exercise and improve heart and lung function—just to name a few of its benefits!

### **The Bad News Is...**

#### **Your Glutathione Levels are FALLING!**

Your body's supply of glutathione begins to decline 10% to 15% per decade starting at the age of twenty. Various daily factors can lead to the depletion of a person's available supply of glutathione. Stress, exercise, infection, injury and environmental toxins are just a few of the factors that can significantly reduce glutathione. Reduced glutathione levels result in lower energy, higher cellular inflammation, a greater vulnerability to cellular damage, accelerated aging and potentially compromised immune function.

### **The Good News Is...**

#### **MaxGXL Can Dramatically Raise Your Glutathione Levels.**

MaxGXL has been shown to significantly increase intracellular glutathione.\* Conducting blood tests in which glutathione levels were measured in white blood cells, MaxGXL creator Dr. Robert H. Keller was able to verify significant increases in every subject tested. Subjects experienced substantially increased glutathione levels after only three months of daily use. Because every individual is different, results will vary.

#### **Increasing Cellular Glutathione Can:**

- Dramatically Raise Your Energy Level
- Strengthen Your Immune System
- Fight Intracellular Inflammation
- Slow Down the Aging Process
- Improve Athletic Performance and Recovery
- Detoxify Your Body
- Improve Mental Function
- Enhance Your Sense of Well Being

#### **Patent-Protected—Revolutionary Results!**

MaxGXL has been awarded a patent for its unique composition of nutrients designed to increase glutathione. This patent-protected product has been acclaimed for its full-spectrum design in not only raising glutathione levels, but also for its ability to enable the liver to recycle the body's used glutathione, further increasing the total reservoir of glutathione.\*

#### **Cellular Energy—the key to good health!**

Energy, healthy organs and skin, and the ability to fight the damage caused by free radicals all require healthy cells. While adding antioxidants to your diet can be beneficial to supporting good health, it is glutathione—the natural antioxidant produced by your body—that is most important for protecting healthy cells.

---

*The more glutathione a cell has, the better it can perform its function.*

## MEDICAL CONDITIONS ASSOCIATED WITH LOW GLUTATHIONE LEVELS

- ~ Obesity ~ Immune signaling ~ Endothelial dysfunction ~ Alcoholism
- ~ Inflammation ~ Heavy metal poisoning
- ~ Angina and spastic angina ~ Unstable angina ~ Heart attacks ~ Positive stress tests
- ~ Reperfusion after cardiac bypass surgery
- ~ Emphysema (COPD) ~ Pulmonary Fibrosis (IPF) ~ Asthma ~ Muscle wasting in COPD
- ~ Chronic bronchitis ~ Tobacco abuse
- ~ Migraine headaches ~ Alzheimer's ~ Parkinson's ~ Multi infarct dementia ~ Autism
- ~ ADHD (Attention Deficit Hyperactivity Disorder) ~ Bipolar disease ~ Schizophrenia
- ~ Lou Geri's disease ~ Huntington's chorea ~ Multiple Sclerosis (MS) ~ Depression
- ~ Cataracts ~ Macular Degeneration
- ~ Hepatitis A, B, and C ~ Herpes simplex ~ Herpes zoster/shingles ~ Influenza and Bird Flu
- ~ HIV ~ MRSA ~ Common viral infections (upper respiratory, gastroenteritis) ~ Others
- ~ Systemic Lupus Erythematosus (SLE) ~ Rheumatoid arthritis (RA)
- ~ Multiple Sclerosis (MS) ~ Systemic Sclerosis (Scleroderma) Syndrome ~ Behcet's Syndrome
- ~ ME/CFS ~ Fibromyalgia ~ Other Infectious Disease/Immunology
- ~ Wrinkles, sagging ~ Acne ~ Psoriasis ~ Atopic dermatitis ~ Eczema ~ Other Dermatology
- ~ Brain ~ Head and Neck ~ Thyroid Cancer ~ Lung ~ Esophagus ~ Stomach ~ Intestine ~ Liver
- ~ Pancreas ~ Kidney ~ Uterine ~ Ovarian ~ Prostate ~ Leukemia (acute and chronic)
- ~ Lymphoma ~ Multiple myeloma ~ Other Cancers
- ~ Infertility ~ Spontaneous abortions ~ Pre Menstrual Syndrome

Excerpt from **GLUTATHIONE Your Best Defense Against Aging, Cellular Damage and Disease** by **Dr Robert H. Keller, MD, MS, FACP, AAHIVS** – Director of Medicine & Research/KBK Institute of Advanced Medicine, Published 2008

## **MaxGXL**

**Created by a World-Renowned Immunologist**

**And Medical Researcher: Robert H. Keller, MD, MS, FACP**

Robert H. Keller has been named one of the world's 2,000 Outstanding Scientists of the 21st Century. He has served on the scientific review panels for the National Institutes of Health and the Veterans Administration, and on the faculties of the Mayo Graduate School of Medicine, the University of Wisconsin, and the Medical College of Wisconsin (Marquette University). The Consumer's Research Council named him one of America's Top Physicians in 2003, 2004, 2005, 2006 and 2007 in the fields of Internal Medicine, Immunology, and Hematology.
